

Dear Customer,

We are pleased to share an update on Rondot Group's sustainability journey.

In our second EcoVadis assessment, **we achieved a Silver Medal with a score of 74/100**, a significant improvement from 61/100 in our first submission last year (Bronze Medal). This progress reflects our continued commitment to embedding sustainability into our business practices.

Our company achieved significant improvements this year in three key areas, demonstrating the strong progress of our sustainability strategy:

- Strengthening and expanding **policies** across sustainability topics.
- Implementing practical **measures** to enhance our performance.
- Increasing transparency through enhanced **sustainability reporting**.

Performance highlights (EcoVadis 2025 report):

- **Overall:** 74/100 - placing Rondot Group in the 91th percentile*.
- **Industry standing:** Rondot ranks in the **top 3%** of companies assessed in the Manufacture of special-purpose machinery sector.
- **Environment:** **Top 4%** of industry peers.
- **Labor & Human Rights:** **Top 4%**.
- **Ethics:** **Top 3%**.
- **Sustainable Procurement:** **Top 4%**.

* The percentile rank allows you to compare your score with those of other companies. For example, if a company is at the 91st percentile, it means its score is equal to or higher than the score of 91% of all companies assessed by EcoVadis. The percentile rank is calculated at the time the score is published.

These results demonstrate the tangible improvements we have made over the past year, moving from Bronze to Silver recognition. We will continue to strengthen our sustainability approach, guided by EcoVadis' feedback and industry's best practices.

Please find attached the **[official EcoVadis CSR Performance Overview](#)** for your reference.

Kind regards,

Isabel Comoy,
Head of CSR, Communication & Employer Branding.
